DETAILED ACTION

1. Applicant's amendment filed April 11, 2005 is acknowledged and entered. New claims were introduced in this amendment, creating the need for restriction with regard to claim 32.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Applicant is required to elect one sequence for examination:

Groups 1-122, drawn to SEQ ID NO: 1-122, respectively. For example, if Applicant elects Group 1, then SEQ ID NO: 1 will be examined along with the other elected claims.

Restriction between the sequences is required because each sequence needs a separate sequence search. Further, the amino acid sequences are not the same, resulting in different epitopes. A search of the literature for all of SEQ ID NO: 1-122 would be a serious burden.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

3. Applicant's amendment necessitated this restriction requirement. Therefore, the next Office action will be final.
